# Oracle PeopleSoft Integration

Our innovative and flexible time collection solution is designed to pair with your existing Enterprise Resource Planning (ERP) or Human Capital Management (HCM) system and deliver increased efficiency, streamlined business processes and improved workforce productivity.

Using TCP's time collection, your organization can choose from a variety of devices such as customizable time clocks, phones or tablets, or take advantage of desktop computers your workforce already uses. With a wide range of configurations, you can enhance your data collection and add value to your solution.
